

Better
environments
Better returns

LANDPRO.

Principal / Senior GIS Analyst

An exciting opportunity has arisen for highly organised **Principal / Senior GIS Analyst** to join our Cromwell Team. In this role you will work alongside dynamic individuals across the Landpro Limited team and the wider business.

Our vision is to be the best little environmental consultancy in the world. Being the best in the world and little might seem at odds with each other, but we believe in being the very best doesn't have to come at the expense of people, partnership and being connected. We are growing and will continue to do so, but never at the expense of the culture we created when we were little – be your best, be collaborative and be honest.

Our guiding purpose is to navigate the many complex environmental challenges our wide and varied client base face delivering strategic outcomes to secure the future value of their environmental assets. We call this delivering an environmental return. We do this across a wide range of environmental services and covers all aspects of Land and Aerial Surveying, Planning, Environmental Science, and Geospatial Consultancy.

Our people truly are our greatest asset; they are hardworking and all-round great people: we care about meeting the needs of each other and our clients. As a company we are focused on fostering long term opportunities for the growth of our people.

Principal / Senior GIS Analyst

This is an opportunity for the right candidate to be a part of a dynamic, knowledgeable, and high performing team with a reputation for high quality deliverables and strong, long-term client relationships.

The right candidate will be able to bring their proven experience and skills to a growing, forward-thinking company and drive customer satisfaction through the timely delivery of project-based GIS deliverables, using industry leading solutions. Collaborating on new, innovative technology and solutions, this role has plenty of scope to make it your own.

We utilise ESRI's ArcGIS suite of software solutions, with a range of different data and image sources including our Aerial team's orthophotography, multi-spectral and LiDAR deliverables. This allows our team to provide end to end solutions, from aerial image capture, through to processing and GIS Analysis. The GIS team also support

our Surveying, Planning and Farm Environmental teams by providing cutting edge technology and value adding project deliverables.

You will be a team player, have a strong work ethic, ability to multitask and be hands on when necessary.

About You:

- Tertiary qualification (or equivalent) in a relevant GIS/spatial field.
- Minimum five years of experience in the use of GIS Software, including ArcGIS Platform including ArcGIS Pro and QGIS.
- Some experience using PostGIS (extension for PostgreSQL), SQL Server/Transact SQL, FME and Python is desirable but not essential. .
- Experience in a senior role within a team working in a production environment associated with GIS development and deliverables.
- Demonstrated experience designing custom applications with relevant programming languages.
- Practical and demonstrated experience planning and managing projects.
- A multitasker who can handle varied workloads and time constraints.
- Show initiative and be proactive
- Excellent written and verbal communications
- Capable with IT and able to pick up new systems/software quickly

Please note this is a permanent full-time role. Based either in our Cromwell or Wanaka office in beautiful Otago. You must hold a valid New Zealand Resident Visa or be a NZ Citizen

What we have on offer:

- Flexible office location of Wanaka or Cromwell.
- A highly competitive salary based on experience.
- Genuine commitment to flexible, supportive and family friendly working arrangements.
- Diverse and challenging projects with the opportunity to lead large scale projects and refine skills in specialist areas.
- Income Protection and Life Insurance cover.
- Annual Medical Allowance.
- Development and career pathways
- Dogs at work
